

LOUDOUN MEDICAL GROUP PC
ADDENDUM TO NOTICE OF PATIENT PRIVACY PRACTICES

THIS NOTICE IS AN ADDENDUM TO OUR STANDARD PATIENT PRIVACY NOTICE.

New Technology to help LMG Providers create medical notes.

Overview: As part of LMG's commitment to efficient and accurate documentation of healthcare services, LMG may use AI to assist in creating the medical note. This technology converts conversations between patients and providers into medical notes. The technology will only be used for the purpose of improving patient care and assisting in accurate record-keeping. Any healthcare data collected using this new technology is protected under the same stringent privacy regulations as all other health information.

Security Details:

Patient information is fully encrypted and anonymized (only ptID included).

Data is deleted after a short retention period.

Because the medical documentation process is fully automated any patient data is LESS exposed to human eyes compared to other documentation methods.

Benefit to patients: Provider can focus on patient care while more detailed and accurate documentation is created.

Ambient listening/AI software used:

The LMG Provider may use the following Ambient Listening/AI platform/software: Freed, Abridge AI.

By signing the below, you agree to allow LMG to use the above technology to help us help you.
